JACKSON CITY ITEMS

Local Happenings About Amador's County Seat

Lyna Spinetti, who resides in San Francisco, is spending several weeks' vacation in Jackson, as the guest of her niece, Mrs Rose Carley.

Mrs Joseph Bianchi, wife of Joseph Bianchi residing on north Maine street was presented with a large baby boy last Saturday. The new arrival is in fine health, and the mother is also doing nicely.

Mrs Georgia Caldwell, a teacher in Jackson's public school, left this city on Tuesday last for the coast. She will go to San Francisco, and from there visit several other cities before returning to take up her fall work.

Mrs Pitois, who has been critically ill for some time past, is on the improve, and her physician, Dr. Endicott, reports that she will soon be about again.

M. Eudey, a former resident of Jackson, who is employed at the Fremont mine and who makes his residence in Drytown, is at present visiting relatives and friends in Jackson.

A blacksmith employed at Martell's station had a piece of steel run into his hand on Monday last causing a very painful wound. Dr. Endicott treated the injury and the patient returned to his work.

At 9 a. m. Tuesday morning, Dr. Stork visited the home of Mr and Mrs John Kuselj and presented them with the grandest little baby girl that has ever been sent to the Mason tract.

John Rose, W. Hess and party reporting having had a grand wetting during a cloud burst at Blue lakes. That is why the water in our pipes is so muddy.

Miner Hit by Blast

Michael Parisch, employed at the Zeila mine, met with an accident on Monday evening about 4 o'clock that nearly proved fatal to the miner.

A blast was set off in the mine, and the miner for some reason as yet unexplained failed to run to safety, and as a result, was struck by the blasted rock and nearly killed. His side was literally peppered with fine rock, and his left leg badly cut and bruised. Dr. Gall is treating the patient and says he is confident the man will recover, but it will be some time before he can resume his duties at the mine. Parisch is boarding with Mrs Lepava, near the Jackson brewery. He complains of suffering considerable pain.

Concert Saturday

The Jackson Military band gave an open air concert last Saturday evening on the porch of Love's hall, which was greatly enjoyed. Prof. A. S. Moore, the new bandmaster, who came here from Berkeley, was head musician and brought out a fine program in a very satisfactory manner. Moore seems to be in earnest as far as his band work goes and it remains with the individual players if a first class organization is to be counted on. Jackson needs a good band, and there is positively enough demand for it to put it on a good financial basis, under proper management. The open air concerts will continue regularly in the future.

Saturday evening next the city will be treated to a concert of an exceptional character. The new band leader is determined that everything in his power will be done to make the band a creditable organization, and one that Jackson will have a right to feel proud of. The following program has been arranged and will be rendered at the concert:

March, "Return of the 47th Regt," S. Bryant; select, "Robin Hood," R. de Koven; Cuban dance, "Fontella," W. H. Kiefer; waltz, "The Seraph," J. W. Lafferty; popular airs, "Cotton Babes," Percy Wennich; "Put on your old gray bonnet," Percy Wennich; baritone solo, "Emplion," H. C. Miller, Gus Laverone; Ov. "King of Diamonds," Chas J. Rockwell; characteristic reverie, "Sliding Jim," F. H. Losey.

Stricken With Paralysis

Conductor Becker, for many years employed on the Amador Branch railroad, was stricken with paralysis early Sunday morning. The stroke affected one side of the body, and rendered him helpless. He was sent to the railroad hospital at San Francisco Sunday for treatment. He had been ailing for some time, but was able, with occasional lay-offs, to attend to his duties on the road, up to within a few days of this last serious affection.

Elopers Caught

Chas. Lubanko and his aunt, Mrs Mary Lubanko, who eloped from Angels Camp on July 9th, were located at Sanger, a small town near Fresno, where they had started life anew, and arrested on a warrant issued on complaint of the husband of the erring wife. The couple were brought back and hailed before Judge McClory. The woman was allowed to go on her own recognizance, and the man held in \$1000 bonds to await trial.

A. B. Summers Killed By Fall Down a Shaft

A. B. Summers, well known in Amador county, and a former county surveyor, met an untimely death by falling down a mine shaft in El Dorado county on Sunday last. Mr Summers was employed at Mountain Boy mine, which is located near Nashville. According to the report received at our office, the unfortunate man was in the act of stepping on the side of the skip, preparing to go down into the mine, when he made a misstep, and in an instant disappeared down the side of the shaft. The mine foreman, who witnessed the fatal fall, hurried to the sump of the shaft, where they found the crushed form of the miner.

Mr Summers has his residence in Plymouth, and leaves a wife and five children to mourn his loss. Carrie the oldest daughter, married Martin, Robinson, and resides in Sacramento, Alfred, Frank, Alvinza and William, the youngest aged 12 years, all reside at the home in Plymouth. Mrs Summers, widow of the unfortunate man, is a sister to Mrs A. Scapuzzi of Jackson. Mrs Scapuzzi and daughter Rose Scapuzzi, upon learning of the sad accident, which was phoned to them, immediately went to Plymouth.

The remains of Summers were brought to Jackson on Wednesday, and funeral services held in the Methodist church, after which the body was interred in the protestant burying grounds of this city.

Face Badly Cut by Rock

Monday morning about 8 a. m., John Martinetti received an ugly wound on his face by a falling rock that required 8 stitches to close. The unfortunate miner was working in a drift when a sharp stone fell striking him on the cheek. The wound bled freely and his physician, Dr. Gall was hastily called. The doctor found his patient in great pain. Proper treatment was given the victim, and he is reported to be improving nicely.

Accidently Shot

John Molignoni, who lives with his parents near Jackson Gate, met with a painful accident Tuesday morning while out hunting with a 22 rifle.

The lad was crawling through a barb wire fence carrying his small rifle, when the trigger caught on a wire discharging the gun, and sending the small slug plowing through the muscle of the right arm. The bullet lodged in the shoulder. Dr. Gall was called and removed the missile, greatly relieving the pain for the young hunter. No serious complications are anticipated.

Breaks Arm In Fall

Fred Spangler, an inmate of the county home, had a fall down stairs Saturday last, and sustained a fracture of the right arm. Dr. Endicott, the county physician, was called, and rendered the necessary services. Spangler is about again with his arm in a sling.

Finger Cut Off

A miner named Bantonovich, while at work in the Zeila mine last Sunday afternoon, had the second finger of his right hand cut completely off by a falling rock. The injured man was hurried to the surface, and Dr. Gall was summoned. The doctor cleaned and dressed the wounded hand and reports his patient getting along nicely.

Mokelumne Hill Party

On Monday evening, about 6 o'clock, a party of native daughters, twelve in number, left Jackson to attend the installation services held by Sequoia parlor No. 160 of Mokelumne Hill.

The party left in one of Podesta and Taylor's large busses and had a very enjoyable trip. After the services a program was rendered and lunch served. Those who went over to the hill in the buss were: Minnie Gardella, Mrs Annie Hurst, Mrs C. C. Ginochio, Mrs Mary McDonnell, Mrs P. Podesta, Mrs L. Piccardi, Esther Turner, Mrs Kate Garbarini, Carrie Badaracco, Mrs Wm Dufrene, Miss Dufrene, Mrs Geo. Green, Mrs Verda Oneto.

Dance A Success

Jackson's Booster's dancing club held a grand ball in Love's hall last Saturday evening that far excelled anything thus far carried out by this energetic society. The crowd was large and the dancing hugely enjoyed. Patton and Springer's orchestra from Lodi was engaged and furnished some of the latest dance selections, together with other popular dance music. J. A. Piccardi acted as floor director, and his popularity adds to the club as a good drawing card, the members of the boosters' club acted as floor managers.

Dave Brisco, Frank Garbarini and J. L. Fontenrose, were on the committee of arrangements, and had everything in such shape that the occasion was bound to be a grand success.

Many carriages came in town bringing in dancers from all over the county. The local liveries had a good supply of teams ordered out of town for the occasion. The proceeds of the dance amounting to over \$40. were donated to Jackson grammar school.

Barn Destroyed

Nick Baich, a farmer residing about two and a half miles out of Jackson, had the bad luck to loose his season's crop of hay about 50 tons, which was destroyed by fire last week. Baich's ranch is located just above the Zeila mining property, and the blaze could be seen by many Jackson residents. The barn and several farming implements were totally destroyed.

Base Ball Game Greatly Enjoyed

A large crowd packed Zeila park Sunday afternoon to witness the hardest contested game played on the home grounds this season.

Angels Camp ball team arrived in Jackson Saturday night and were the guests of the local team at the Booster's dancing club ball, held in Love's hall Saturday evening.

The game was exciting throughout and the score a tie, 8 to 8 at the close of the 9th inning, in the 10th and final inning Angels Camp made four more runs, while Jackson got three strike outs, leaving the final score 12 to 8 in favor of Angels Camp.

L. Raggio, pitcher for the visiting team, proved a regular puzzler, and strung the scalp of many of Jackson's best batters on his belt. Beyer, catcher for the Calaveras team, seemed to be quite a favorite with his home team, and the work of his team deserves special mention. In the 10th inning with three men on bases and a tied score, the mask handlers made a 3 base hit bringing home 3 runs, and then on a one base hit by R. Raggio, he scored his own run.

While Jackson was defeated, still it can be truthfully said she has far the best ball team and played the best game of ball.

Skelly walked under a pretty fly that was far over the foul line, and held it for an out, made several good hits and played a grand game throughout. Cromer plays all over the diamond, always watching the ball. He is the best first baseman that has ever played on the park this season, barring no team, and is a most valuable help to Jackson. Fortner scored two runs and did very good work behind the bat. Steele, the new left fielder, had two runs placed to his credit, and Mason 1 run. Mason hit a pretty fly right into right field that was fumbled, letting him make 3 bags on it, there were no coaches on the third bag, and the second baseman of the visiting team in a wild throw to the catcher, who missed the ball, caused many to cry "home". Mason started home, but was put out between bases.

In the 9th inning in a run home to home plate, Schwartz collided with several players, was knocked out for a few minutes. He resumed the play however, and finished the game. Dorroh of the Angels team, complained of a broken finger after the game. He was struck by the ball on the fingers end while in the act of catching it, and the finger was badly injured.

New Enterprise Well Patronized

The new billard parlor opened in the room next to Weller's hardware store on Main street, is doing a flourishing business. The parlor is well lighted and the polite and courteous treatment shown all who wander indoors is fast giving the place an excellent reputation.

Mr Allison, who opened the hall and set up the tables, left for Napa last Monday. He will take charge of the Napa pool parlor and his partner, Mr Jenkins, who at the present managing the Napa business, will come to Jackson and take charge of the local billard parlor.

On Long Trip In Search for Suitable Ranch

Andrew Thomas and wife and a young man named King, passed through this city Tuesday morning bound for Angels Camp, Calaveras county. The party travel in a large covered wagon drawn by 4 horses, and have been moving southward since they left their home in Rathdrum, Idaho, on the second of last May. Their object in coming into this county is to evade the long cold winters, and Thomas says he expects to purchase the first ranch that meets with his liking. On a visit to the Ledger office, he gave the following route traveled enroute from Rathdrum, Idaho, to Jackson California. Left Rathdrum, Idaho, May 2nd, 1910, and passed through the following towns: Skokanne Bridge; Idaho in Washington, he passed through Freeman, Washington and Waverly, he describes the last town as a great sugar beet center. Rosalia, Thornton, Steptoe, and Colfax were next visited. The town of Colfax, he said was a complete wreck when they passed through, caused by a flood a few days previous to their visit there. Wilcox, Benawa and Walla Walla were the last towns in Washington to be visited. Thomas describes Snake river as one of the greatest fruit raising districts in the United States. In Oregon, he visited Milton, Athena, Adams, Pendleton, Pilot Rock, Burkia, Dale, Range Long Creek, John Day Canyon City, Burves, Wagonire Mountain, Alkali Lake, Albert Lake, Lakeview, Rine Creek, at Alturas he entered California and traveled through the following towns: Lekeley, Madeline, Vanlose ranch, Horselake, Susanville, Johnstonville, Jamesville, Honeylake, Milford, Beckwith, Sattley, Sierra City, Downewille, Mountain House, Nevada City, Grass Valley, Colfax, Auburn, Newcastle, Folsom City, Latrobe, Plymouth, Drytown, Amador City, Sutter Creek, and Jackson.

Ladies Get One Night

The National Billard parlor will have an exclusive women's night on Tuesday next, when Jackson's fair sex can shoot the pool balls to their hearts content without the embarrassment of a host of male critics to witness the many scratches that might be made.

Visit Sutter Creek

Last Friday evening, July 22, Mrs Jas. J. Wright, D. D. G. P. acting as installing officer and assisted by Mrs Annie D. Hurst and Mrs V. Podesta, visited "Amapola parlor," N. D. G. W., located at Sutter Creek and installed the new officers for the ensuing term.

A large program was furnished consisting of readings, music and recitations, and was followed by refreshments.

Fine Trip to Ione

Chispa Parlor, N. D. G. W. of Ione, installed their newly elected officers last Saturday evening, July 23. Mrs J. J. Wright, D. D. G. P. of Jackson, was the installing officer and she was assisted by Mrs Annie D. Hurst and Miss Aileen Fleming. A program of exceptional interest was rendered several interesting speeches were delivered, and the evening's proceedings concluded by a sumptuous luncheon.

Doctor Fights Fire On Trip to Patient

Shortly after 11 o'clock Saturday morning, a fire was discovered at the residence of Nicholas Glavovich on north Main street, in what is known as Newmansville. The property is owned by W. D. Dufrene and is fully covered by insurance. Dr. Gall was driving out Main street as the tennant rushed into the street crying "fire, fire". He immediately tied up his team, and with the assistance of E. Dufrene, who resides close by, the fire hose was connected at the plug just opposite the burning building, and in less than two minutes a good stream of water was pouring over the burning shingles, and the fire quickly put out, before much damage could be done. Had the same fire started Thursday when the water was shut off, the property would have positively become a total loss.

Giovannoni's delivery wagon was on its way to the store when the fire bell rang, and he turned his team and hooked the hose cart to the rear of the wagon, and after learning the location of the fire, galloped his horses to the scene of excitement. The blaze was extinguished however, just as the hose cart arrived.

The building was crowded with inquisitive men, women and children after the blaze was put out, when suddenly the ceiling which was weighted down with water, fell in, scratching and frightening the crowd who fought their way through front and rear doors into the yard. No loss was suffered to furniture, and the loss to the property is not great.

Eloped and Wed

Volney Fournier of Niles and his wife, formerly Miss Ritta Lucas, are living in Tracey for a time, as Mr Fournier is engaged in work here. Mrs Fournier was a popular "hello" girl of Niles. She is the daughter of William Lucas, assistant superintendent of the California Door Company, Oakland.

The announcement of Mr Fournier's marriage came as quite a surprise to all friends and relatives, for early on Wednesday morning, the 15th of June, Ed. Rose, the chauffeur, was summoned with his auto, and in company with his wife, the young couple eloped to San Jose. Milton Fournier and wife of Niles, brother of the groom, also accompanied them. They will live with Milton Fournier as soon as they return to Niles.

Volney is well known to the Sutter Creek people, and most of Amador county, so this will come as a surprise to them.

Goes for Treatment

Wm. Tam left last Saturday morning for San Francisco, where he was admitted to the German hospital to undergo treatment for rheumatism. Tam only recently returned from a sanitarium, where he had undergone a course of treatment, and seemed greatly improved. However, the affliction returned in a more serious nature than the first attack, and compelled him to again seek the aid of specialists.

Golden Star Goes to Ione Tonight

Ione and Golden Star Chapters will meet together at Ione Friday, July 29th, to entertain the grand matron, Mrs Rosa M. Burns. The officers of Golden Star are invited to do the initiatory work. About fifteen members have consented to go, Alice L. Jones, W. M.; R. L. Kerr W. P.; Augusta Fleming, A. M.; Mary Lucot, C.; Mrs C. Williams, A.; Mrs Anthony, Chap.; Mrs Matson, marshal; Mrs Emma Wright, Miss Ilene Fleming, Mrs A. Rugne, Mrs Annie Harvey, Louise McLaughlin, Mrs Hoskins, Mrs E. Bastian, Mrs C. Schacht, Mrs Endicott, Mrs Wilson and Mrs Patterson.

New Power Plant

A party of capitalists from the east representing the Syndicate interested in the new power plant to be constructed on the Mokelumne river, are visiting this vicinity under the guide of W. H. Underwood, head of the General Electric Power Company. The investment of several million dollars by this company in this and Calaveras counties means a boom for our people. While in Jackson, Mr Underwood would only confirm the report that engineers are in the field making final locations of the ditch line and power site, together with other important work preparatory to construction of the entire system. Mr Underwood said, I cannot at this time add anything to what you already know, but on my next visit, I may be able to talk more freely of our plans.

Ladies Get One Night

The National Billard parlor will have an exclusive women's night on Tuesday next, when Jackson's fair sex can shoot the pool balls to their hearts content without the embarrassment of a host of male critics to witness the many scratches that might be made.

MINE NEWS ALONG LODGE

Interesting Accounts of Mines Located In Amador Co.

Climax
Dr. Aitken, who has control of this property, situated a mile or so south of Pine Grove, has interested a number of Eastern capitalists in the mine, and expects to secure its development on an extensive scale. The doctor has spent years on this mine, and has great faith in its future. He realizes that the only way to test its value is to sink to a considerable depth, and demonstrate by actual mining whether or not the gold-bearing veins of this belt reach far down into the earth. As far as developed the mine shows a strong ore body, several hundred feet in length, and carrying pay values. He proposes to get a company to sink the shaft to a depth of 1000 feet. The indications point to a well-defined fissured vein, with gouge and smooth walls. The gold-bearing character of the quartz is abundantly proven by the work that has been done here in the past. The one point that remains to be decided is whether the gold bearing ore continues to such a depth as will command the attention of capitalists who operate on a large scale. There are a series of mines along this east belt, which would no doubt be stimulated into activity by the opening of the Climax at depth. Dr. Aitken went to San Francisco Sunday on business connected with this mine. He hopes to organize a company prepared to spend \$100,000 in equipment and developing the mine to a depth of 1000 feet.

Dane-Mitchell

We understand this mine near Pine Grove has come to a temporary standstill. Considerable money has been expended on the surface, but no effort has been made to explore the property at greater depth. Two hundred feet is the extent to which the mine has been prospected. It is a mere scratching of the surface, and leaves the problem of a good paying mine still undetermined. The superintendent left for the city early this week and hopes to induce those behind this mining venture to furnish capital to sink several hundred feet deeper.

Central Eureka

A strike of rich ore was encountered in this mine early this week. A small seams of bonanza rock was discovered in the 1200 foot level. How extensive it is cannot be told, but it may lead to important developments. The stock has materially stiffened in price. It was quoted at 65c before the strike; now it cannot be had for less than \$1.

Rebekah Installation

Officers of Rebekah lodge of Jackson were installed last Saturday as follows: N. G. Annie Angove; V. G. Amy Clark; Sec. Annie L. Clark; treas., Kate Langhorst; warden, M. A. Tregloan; conductress, Maud Vandament; chaplain, Lulu Clark; I. G. Sam Avise Mrs Bacon of Ione was the district installing officer.

Miner Becomes Insane

A young miner named H. W. Tregoning, who has been boarding at the Globe hotel for the past several months, became violently insane last evening, and it required the united strength of several men to subdue the frantic man, and prevent him from injuring those seated in the hotel lobby. Wm. Green, one of the proprietors of the hotel said he noticed that Tregoning was acting exceptionally queer all day yesterday, and was on the verge of a break down, but dreaded to report the matter to the authorities, because of the gentlemanly way in which the young miner conducted himself. He said the young fellow ate a hearty supper, after which he returned to the lobby and seated himself in a chair, and began to talk aloud to himself, of murders and blood and all sorts of vicious crimes. Green notified deputy sheriff Connors of his conduct, and Connors approached the demented man and seating himself besides the miner, asked him if he was feeling ill. This angered the man, who began threatening Connors. After satisfying himself that the victim was unsafe to be at large, the sheriff was notified and the naniac was bound after a hard struggle and taken to the county jail.

Tregoning has two brothers residing in this state, and an uncle in Grass Valley, who it is reported to be well fixed financially. All will be notified of the man's condition, and it is expected something will be done in his behalf to prevent him from being sent to Stockton insane asylum.

BOOST, DON'T KNOCK

The spirit of boosting is infinitely to be preferred to that of knocking in any community, and all under circumstances. In order to boost it is not necessary to resort to falsehood or even exaggeration. It is nothing more than the disposition to picture the favorable side of things. And certainly in a county like Amador, where so much can be said in its favor there is no excuse for painting a gloomy picture. The truly perfect land has never yet been discovered, but Amador comes as near to the ideal as any spot on earth. There can be no question that the county has been retarded by the persistent "knocking" that has been, and still is being indulged in. Petty jealousies crops up in every town. It is a trait in human nature that is not commendable, but nevertheless it cannot be overcome. The less fortunate are disposed to envy those who have forged ahead in their respective departments of human activity. This spirit, however, ought to be controlled by the more powerful incentive of self-interest. In all progressive communities, when enterprises big with promise of benefit to the many are projected, the hammers of the knockers are discreetly kept in the background for the time being at least. If a stranger comes in our midst with the intention of looking into the merits of some mine, with the view of inducing capitalists to invest therein, should the property in his judgment as an expert warrant such a course, let us encourage such investments by all legitimate arguments. It makes no difference whether the mine to be exploited is along the mother lode, or miles to the east or west of it. In no case does the case warrant knocking. We are as proud as the next one of our mother lode mines in what they have surrendered in the past, and the promise of continued liberal output for the future. But we do not believe that the mother lode embodies all the auriferous pay ore-shoots in Amador county. We see no reason why nature should have exhausted her stores of gold in one fissured vein. Placer gold has been liberally scattered over the whole territory of Amador county, with possibly the eastern section commencing several miles above Volcano. Accepting the theory that the quartz veins are the parents of placer gold, it should follow that rich deposits of gold in quartz are hid away in the earth to the east of what we call the main mineral belt. Exploration has not disproved this idea, because the gold bearing quartz ledges to the east have not been tested in depth. Extend the glad hand to the prospector, no matter what section he elects to make the field of his mining operations.

THE GOVERNORSHIP NOMINATION.

As the primary election draws nigh, it becomes increasingly evident that the contest for the republican nomination lies between Curry and Johnson. All the hopes of the supporters of the latter—the Lincoln-Roosevelt league or insurgent wing candidate—center in a division of the regular republican forces between the other four candidates. In a clear-cut issue between the regulars and insurgents the latter would be overwhelmingly defeated. The refusal of Johnson to commit himself squarely, in the event of his own defeat at the polls, to the support of the nominee, has opened the eyes of many to the hollow character of the Johnson movement. Democrats are hoping that Johnson may win the nomination. Some of them have gone so far as to register as republicans for the purpose of helping him out at the primaries. And they boast of their conduct in this regard, and the beneficiaries-to-be is so tickled over the situation that he has this democratic endorsement scattered in circular form all over the state as proof that he is the right sort of man to head the republican ticket. Altogether it looks like a mutual benefit scheme between the Johnsonites and democrats. To us it seems like fatal inconsistency for Johnson to appeal for a party nomination and at the same time refuse to pledge his earnest support to the rival candidate who may chance to outrun him for the nomination. And the reason he gives for this queer stand is that the republican committee that demands this pledge of party loyalty is not truly republican. In other words Johnson has to read the state central committee out of the party in order to bolster up his own free-lance claims. The Ledger has no objection to any of the other candidates, but believing that Curry is the strongest of the bunch of regulars, we think it is policy in this crisis to concentrate upon him to avoid the calamity of a no-party man being the republican standard-bearer this fall.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

An Adjustable Wireless Receiver—Room for Improvement in Light—A New Airship Alloy—Portable Wireless—Paint for Monuments—The Miners' Fire Curtain—Cheap Metal for Bearings—Jamaica Meal—All Roads in One.

The magnetic detector of Rossi signals the arrival of Hertzian waves by changing the twisting oscillation of a fine iron wire stretched in a magnetic field. Two bar magnets are in line parallel to the wire, with like poles pointing in opposite directions. The wire carries a small mirror at its center, and is surrounded by a wire coil traversed by an alternating current having a frequency equal to that of the torsional oscillation of the stretched wire around its axis. The mirror oscillates with the wire. Placed in circuit with the antenna, the degree of oscillation of the stretched wire is diminished whenever it is traversed by the high frequency currents produced in the antenna by the arrival of Hertzian waves, and the signals so received can be recorded photographically by a ray of light from the mirror. This receiver, unlike others, can be made to respond only to special waves. It can be adjusted for various frequencies, and is affected only by trains of waves of a very small range of frequency.

"Light without heat" was found twenty years ago in a large Cuban firefly. In the "Photinus Pyralis," a smaller firefly common in Washington, Drs. H. E. Ives and W. W. Cobblentz have now made a more complete investigation, and have found the luminous efficiency to be 96.5 per cent, as compared with 0.4 per cent for the carbon glow lamp, 1.3 for the tungsten lamp and less than 4 per cent for the mercury arc, the most efficient artificial illuminant. The firefly light, being green, is not adapted to human use. It is possible that white light may be built up by combining the emissions of several substances like the firefly material, and then the efficiency might reach 45 per cent.

Ruebel bronze, a new German alloy of magnesium, zinc, copper and aluminum, has considerable strength and the specific gravity of water. Used as the metal of a Zeppelin airship, the weight would be lessened nearly 4 tons.

The military wireless telegraph of Major Beddington, of the British army, is very portable, and can be put into operation on the field within 15 minutes. In a lake test near Keswick messages were sent and received over a distance of 16½ miles, although a hill 1800 feet high was interposed between the stations, the probable effective range being estimated not less than 40 miles. An ordinary two-horse-power motor-cycle engine is used to drive a dynamo to produce the electric discharges, and the impulses are sent through 100 yards of double copper wires suspended between two 24-foot poles. A copper wire gauge mat on the ground gives earth connection. The apparatus is really carried on horseback, the mat—weighing 200 pounds—being the heaviest load, while the motor and dynamo weigh only 170 pounds, and the poles are attached to a pack-saddle in 6-foot sections.

The stone-preserving compound of R. M. Caffall is a mixture of paraffin with creosote dissolved in turpentine, and is designed primarily to protect against atmospheric action, while the paraffin prevents organic growth. This is the material with which was checked the decay of the pink granite Egyptian obelisk that was set up in New York in 1881. On its new site the obelisk began to weather rapidly and in 1885, when the protective coating was applied, 780 pounds of loose chips were removed. The heating of the surface necessary in applying the mixture—the melting point of which is 410 deg. F.—did not have the injurious effect feared. The heat caused the substance to be absorbed to the depth of half an inch, and 67½ pounds were applied to the 200 square yards of shaft and plinth. In the 25 years since then, the stone has shown no decay.

A curious kind of automatic fire curtain was described at the late Dusseldorf Mining Congress as a French engineer's device for stopping the spread of mine explosions. Planks thickly covered with powdered schist are placed in the upper part of the gallery, and when an explosion occurs the displaced dust forms a neutral zone that checks the fire-damp and protects the part of the mine beyond. Buckets of water so arranged on the planks as to be easily upset are found to have a similar effect.

A metal for the bearings of machinery—cheaper than the usual ones containing copper—has been sought by W. Guertler in a soft matrix of lead

imbedding iron or its alloys as hardening material. As lead and iron do not mix in a molten state an intimate mixture of the powdered metals was prepared either by precipitation dilute lead solution with iron powder or by grinding iron powder and "lead-tree" crystals together, and the mixture was heated to 250 deg. or 300 deg. C. and stamped in molds. Various iron alloys may be used instead of pure iron. The products compare favorably in mechanical qualities with the more expensive bearing metals of copper in lead or tin, and can be readily produced. The stamped metals are regarded as true alloys, obtained without fusion. Similar products were obtained by Friedrich by kneading, with one or more of the constituents in a pasty condition, and these also are pronounced genuine alloys.

Banana meal is among the food supplies that is rapidly extending in use. It is made by drying and grinding the unripe fruit, and the meal has a chemical composition very different from that of the ripe fruit. When well ripened, the fruit contains 70 per cent of sugars and only 1 to 2 per cent of starch, while the meal has nearly 80 per cent of starch and only 3 or 4 per cent of sugars. A special banana "cocoa" is manufactured in Switzerland, and is claimed to have a fine aroma and high nutritive value. Several analysis have shown that Jamaica banana meal contains 12.77 per cent of water; 2.45, ash; 4.69, protein; 0.75, nitrogen; 78.32, non-nitrogenous substances; 1.28, crude fiber; and 0.49, fat.

A unique story is told by a bit of road exhibited at Brussels. A third of a mile of avenue ending at the Civil Engineering pavilion is divided into sections of two yards, each section representing some type of road employed by civilized nations, and the whole giving a graphic history of roads from those of ancient Rome to the most advanced modern type, and showing the kinds used for foot, horseback and carriage travel.

Newly Weds Are Shipwrecked

San Jose, July 23.—Following is a whirl wind courtship and romantic marriage to Miss Cynthia Love, 20 years old and one of the prettiest young women of this district, Albert Brown, with his weeping bride of a month on his arm, was taken to the city prison last night by deputy sheriff Howard Buflington of Santa Clara county and chief of police Noble of Palo Alto charged with wife-desertion or bigamy.

The young bride, Mrs. Brown No. 2, refused to believe in the guilt of her husband until he confessed to chief of police Noble, when she sadly left the police station with a promise that the circumstances which prompted the criminal action of her husband would be fully explained to her in the morning.

Brown was married to Miss Love about one month ago at the First Baptist church in this place, the Rev. John M. Dean officiating. The marriage followed a short and strenuous courtship and the couple took up their abode at the Galt house. The charge against Brown is that he was married a number of years ago, and has a wife and two children living at Hollister. He is said to have deserted his family two years ago.

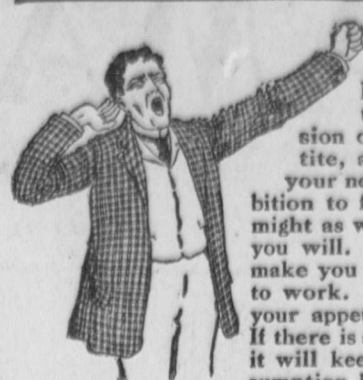

Chief of police Noble has been tracing Brown ever since he deserted his wife and children. At the time of the desertion he sold all of the household furniture and left the woman destitute. The second child was born just one week after Brown's disappearance. He came to San Jose some months ago and obtained employment in a local concern, taking quarters at the Love residence on West James street.

When first confronted by the officers he pleaded that they should not tell his young bride. Miss Love says that even yet she cannot believe that her husband is guilty of any wrong and is confident that extenuating circumstances will furnish a reason for his criminal action. Brown is 32 years old and has been honorably discharged from the army. Mrs. Brown, No. 1, will prosecute and is expected here this afternoon.

Deafness Can not be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars or any case of Deafness (caused by Catarrh) that cannot be cured by H. J. Catarrh Cure. Send for circulars, P. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice. Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

DONT HIDE YOUR MONEY
The man who hides his money
because he assumes to be afraid
of banks forgets that it was the
bank that perhaps made the pros-
perity possible which gave him
his money making opportunities.
Without the bank there would be
no large commercial or business
enterprises possible, salaries and
wages would be low, and money
making impossible. It is the
bank in the exercise of its func-
tion in gathering together the
funds of a community and putting
them into active use that has
brought prosperity.
To hide money is to hinder and
hurt prosperity by restricting the
circulation of money. Bring your
money to the bank.

SUTTER CREEK

July 29.—Mrs P. Grady and daughter Marie, are visiting relatives in San Francisco.
A. B. Harrison and wife and Mrs. Z. P. Smith, who have been visiting relatives at the Tanner home since the 4th of July, returned to their home in San Francisco this week. Miss Zeta and Leland Tanner accompanied them to spend a few weeks vacation.
Mrs M. D. Nixon, Miss Enid Nixon, and Miss Margaret Brady left this week for San Francisco.
Walter Hartwick met with an accident last Monday by the breaking of the brake rod on the wagon which he was driving. In jumping from the wagon, he broke some of the bones of his foot, and will be laid up for a little while.
The remains of Lambert Littlefield, who died at Burson, Calaveras county last Thursday, were brought to Sutter Creek last Friday, and interred in the family plot in protestant cemetery on Saturday afternoon. For a number of years he was a resident of Sutter Creek. He leaves an aged wife, who was too ill and feeble to take the journey and attend the funeral, Frank Littlefield of this place, who is a son of deceased, besides other children who survive him.

Card of Thanks

QUARTZ MOUNTAIN

Further Particulars of the Late Fatal Accident.

July 28.—Leland Fardner was allowed to see his grandma and her children for the first time today, and they were trying to find out from him how the accident happened in which Mrs Gardner was killed on the 12th instant. He said when they left Amador, which is about three-quarters of a mile from where Mrs Gardner was found lying in the roadway, the horse got to acting nervously. As soon as they got on level ground his mother got out and fixed a piece of the harness that was hanging down on the horse's hind legs. After that the horse went along all right, until they started over the top of the hill, and then the horse started to run and kick. His mother cried out, "Whoa, Addie; whoa, Addie"—they called the horse "Addie." Then his mother told him to jump out, which he did, and struck on his head. His mother stayed in the buggy, but the little fellow was dazed, and did not know what happened. The road is all cut up with big ditches—water breaks we call them—and close to the top of the hill at the first water break the boy's hat was found, and at the next one, about 100 yards down the hill, a sack of oatmeal was found, and at the next and lower one Mrs Gardner was found lying in the road. About 50 feet below her the boy's tracks were first seen in the road when he started to walk down to Miss Miller's place.
The little boy is still at Miss Miller's house, and thinks his mama is over home about half a mile from our house. He asked the nurse today if his mother could sit up yet, as he has been out of bed only two days, and thinks his mama ought to get well as soon as he did and go to the mountains with him and his papa. Mrs Allen, the nurse, is going away to-day, and we will have to be careful and not let the little fellow know where his mama is until he gets entirely well.
John Grambert has been at the Gardner place for three or four days heading the grain.
Miss Lizzie Ford is working at the old Amador hotel, of which Mr Coffman is proprietor.
Mrs Kuchenbaker and little daughters Hilda and Florence, who were at Lake Tahoe, came home and attended the funeral of Mrs Gardner, who was a daughter of Mrs Kuchenbaker.
Miss Delia Ford went to Oakland on the 15th. She has employment at Lenhardt's candy store.
Mrs John Kelly and little daughter Norine of Jackson are staying at Mrs Ford's, Mrs Kelley's mother, during the summer.
Miss Hattie Dynan was visiting friends in Amador to-day.
Pearl Hambric and wife went to the mountains a few days ago.
Mr McCully is mining on the road in front of the Keystone mill, and I believe is making it pay well, as he looks happy when he comes home in the evening, and I think would be happier if the Keystone would pay up.
D. W. Peck is getting along very well for a man of his age. He is 85 years old, and does his own cooking in his cabin at Lower Rancheria.
Reuben Ford has resigned his position as mill boss at the Bunker Hill, and accepted a position as foreman at the Lincoln Consolidated under A. L. Noce as superintendent.

Engagement Announced

Miss Bertha Eudey, the attractive daughter of Mrs Elizabeth Eudey of Chetwood street, has announced her engagement to John C. Littlefield, a resident of Washington, D. C. Already definite plans have been made for the marriage, which will be an event of September 7 at the home of the bride-elect's mother. Miss Eudey has chosen very simple appointments for her wedding, and only the most intimate friends and relatives will be included in the invitation list.

The daughter of the late Henry Eudey, at one time a prominent banker and business man, Miss Eudey has always taken a prominent part in the social life about the bay. Mr Littlefield is a son of major Littlefield of Ogden and a nephew of Congressman Littlefield of Maine. After graduating from the Annapolis Naval academy, he received a government appointment at the White House. On Saturday afternoon Miss Eudey will give a luncheon at the Palace. Among those who will attend are: Mrs Alphonse Marre, Mrs Alexander Eudey, Mrs Edward Brodenstein, Mrs Oliver Fletcher, Mrs Oscar Williams, Miss Carmelita Theobald, Miss Valentine Ligda, Miss Clara Westover, Miss Edna Campbell, Miss Ruth Crossmeyer, Miss Loree Keagel, Miss Frances Read, Miss Erna Starkey and Miss Inez Eudey. —Oakland Enquirer

sinking fund at that time, and thereupon and before the tenth day of December following, give notice by public advertisement to be inserted twice a week for two weeks in two newspapers published in the county of San Francisco, and also in one newspaper published in the city of San Diego, and also in one newspaper published in the city of Los Angeles, stating the number of bonds to be drawn, and the principal of said bonds will be paid on presentation to the treasurer on or before the second day of January, following, and that from and after such last named date all interest upon bonds thus drawn shall cease, and it shall be the duty of the treasurer as soon as said bonds so drawn by lot are surrendered to him and paid to cancel the same, and the interest coupons thereon, and each year, beginning with the year nineteen hundred and fifty, the said treasurer shall, in the manner aforesaid, proceed to draw by lot such an amount of bonds as shall be requisite to exhaust as near as may be, the amount in said sinking fund, and proceed in the manner hereinabove stated. After the payment of all said bonds, the surplus or balance remaining in said sinking fund, if any there be, shall forthwith be paid into the San Diego harbor improvement fund. At the time of the respective drawings by lot, as aforesaid, and also, on the expiration of either bonds, said treasurer shall sell the United States or other bonds then in said sinking fund, at governing market rates, after advertising the sale thereof in the manner hereinbefore provided for the sale of bonds hereby authorized to be issued, and shall use the proceeds for the payment of such bonds as may be drawn by lot, and at the maturity of said bonds outstanding shall pay and redeem said matured outstanding bonds out of said moneys in said fund in extinguishment of said bonds on consoler's warrants duly drawn for that purpose.

SEC. 6. The state controller and the state treasurer shall keep full and particular account and record of all their proceedings under this act, and they shall transmit to the governor an abstract of all such proceedings thereunder, with an annual report, to be by the governor laid before the legislature biennially; and all books and papers, pertaining to the matter provided for in this act shall at all times be open to the inspection of any party interested, or the governor, or the attorney-general, or any member of either branch of the legislature, or a joint committee of both, or any citizen of the state.

SEC. 7. It shall be the duty of the state treasurer to pay the interest on said bonds when the same fall due, out of the sinking fund provided for in this act, on consoler's warrants duly drawn for that purpose.

SEC. 8. This act, if adopted by the people, shall take effect on the thirty-first day of December, nineteen hundred and ten, as to all its provisions, except those relating to and necessary for its submission to the people, and for returning, canvassing and procuring the votes, and as to said excepted provisions this act shall take effect immediately.

SEC. 9. This act shall be submitted to the people of the state of California for their ratification at the next general election, to be held in the month of November, nineteen hundred and ten, and the same shall be printed and placed in the hands of the voters at the time of the election shall have printed thereon, and at the end thereof, the words, "For the San Diego sealwall act," and in a separate line under the said words, "I am for the San Diego sealwall act," and opposite said lines there shall be left spaces in which the voters may make or stamp a cross to indicate whether they are in favor of or against the same. The voters shall indicate their choice by placing a cross opposite the words "Against the San Diego sealwall act." The governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

SEC. 10. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers, and it appears that said act shall have received a majority of all the votes cast for and against it at said election, as aforesaid, then the same shall have effect as herebefore provided, and shall be irrevocable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof, but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

SEC. 11. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be held in the month of November, nineteen hundred and ten, the costs of publication shall be paid out of the San Diego harbor improvement fund, on consoler's warrants duly drawn for that purpose.

SEC. 12. The state controller and state treasurer are hereby directed to transfer from any moneys paid into the San Diego sealwall fund under the provisions of this act to the general fund of the state of California any and all sums of money thereto transferred from said general fund to the San Diego sealwall fund, together with interest on said moneys from the date of transfer at the rate of four per cent per annum.

SEC. 13. This act may be known and cited as the "San Diego sealwall act of 1909."

W. R. PORTER,
President of the Senate.
P. A. STANTON,
Speaker of the Assembly.
Approved April 16th, A. D. 1909.
J. N. GILBERT, Governor.

News of Interest from
Near-by Counties

The trustees of the Ione Union High school have elected W. F. Turner of Esparto, Yolo county, principal for the coming year. Mr Turner is a man of wide experience in this field, and the trustees feel that with him at the head of the institution they will have a very prosperous school year.—Echo.

Justice C. F. Walter was called to Burson Thursday by the death of Lambert Littlefield, an old resident of that section. Though Mr Littlefield had been sick for over a year and under the care of a physician most of that time, his death occurred during the absence of Dr. March, his physician, in another part of the state. It was desired to inter the body in Amador county and for that purpose a death certificate was necessary. To straighten out the tangle, Judge Walter went down and held an inquest for the purpose of enabling him to give the legal certificate.—Prospect.

A letter received by Mrs Fred Yager the early part of the week, conveyed the news that her father, Thomas Reid, had died in a hospital in New York City, July 10th. Death was due to an accident. He had been enjoying himself in the park, and in returning to his sister's home, where he resided, was knocked down and run over by a cab. The result was a fractured hip and shoulder, with internal injuries, that caused his death in a few hours.

Mr Reid was 76 years old. He was a resident of Ione for many years, and was known to almost everybody. He was a hard working man and rather peculiar in many ways. He was fond of telling his experiences while a policeman in New York, where, as a matter of fact, he had one of the best billets in the city. His two daughters are married to well-known Ione men, one is the wife of Jud. C. Jones, now of Fallon, Nev., and the other the wife of Fred Yager of Ione. The widow, Mrs Ried, is making her home with her daughter in Fallon.—Echo.

FOR KIDNEY, LIVER AND STOMACH TROUBLE

It is the best medicine ever sold over a druggist's counter.

ONLY ONE'S "BEST."

Jackson People Give Credit
Where Credit is Due.

People of Jackson who suffer with sick kidneys and bad backs want a kidney remedy that can be depended upon. The best is Doan's Kidney Pills, a medicine for the kidneys only, made from pure roots and herbs, and the only one that is backed by cured in Jackson. Heres' Jackson testimony:

Mrs J. Bastian, 60 Pitt street, Jackson, Cal., says: "In my opinion, there is no other kidney remedy equal to Doan's Kidney Pills. Their value for relieving pain in the back and other symptoms of kidney trouble was thoroughly proven in my case about three years ago and at that time I publicly recommended them. Since then, another member of my family has taken Doan's Kidney Pills, procured from the City Pharmacy and has received relief from kidney complaint. My advice to anyone afflicted with this trouble is to give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

In a Great Rebus Contest Inaugurated by McNeil & Co., In Conjuring With Eastern Piano Factories

No Charge of any Kind to Enter

All Have an Equal Show

This set of Rebus pictures will interest the grown-ups as well as the children, and has a great deal more to it than the mere fun of getting the correct answer.

The most artistic correct answer will receive the first prize, and the balance of the prizes will be distributed in the order of correctness and in what our opinion would be the most artistic solution received. Everyone has an equal opportunity. You know McNeil & Co.'s way of doing things—just as advertising. We are making this offer at the request of several factories whose representatives we are in California, and by giving this amount away directly to piano purchasers, direct results can be secured at once instead of spending their entire advertising appropriation in expensive magazine advertising. We want everyone interested in Piano or Player Pianos to enter this contest. You, of course, know that we want these prizes and every one of these purchase checks to go where they will be properly appreciated. Be sure and enter; yours may be the answer that will secure one of the big prizes. It certainly will if yours is the most artistic correct answer.

500 PRIZES GIVEN AWAY
